TESTIMONIALS

FH has created not only a lovely environment to work in, but to be an audience member of as well. The collaboration is inspiring and shows the togetherness that this company strives to bring into all they do, while guiding young professionals with the helpful hand of those who have come before them. I hope FiH and the SC continue for years, as it provides so many individuals in the arts community a place to learn and hone their crafts.

Isidora Kecman, PR Representative

Working with Frog in Hand this summer was wonderful. I always felt extremely welcomed and supported in everything I was a part of. Everyone in the company supported one another... I wish I could do this every year and that it could last longer. I learned so much about how to make dance immersive and how to bring the audience into your art. Being a part of such a collaborative process where each individual's feedback was appreciated and heard was a breath of fresh air. Thank you.

Nicole Decsey, Dancer

TESTIMONIALS

This has been the most positive summer dance experience and I'm so glad I was allowed to do this especially right after graduating from school.

Anonymous

I will never stop laughing! Everything feels like joy & humour to me now. I've also gained friends with good character who have taught me how to connect with other dancers on a human (rather than dancer) level - I think it stems from empathy and truly seeing each other right off the bat.

THANK YOU FOR YOUR SUPPORT

Thanks to your generosity, you made all of this possible.
We couldn't have done it without you!
